OUR OFFICE AND STORAGE FACILITIES LOCATED 1 MILE SOUTH OF ROGERS ON HIGHWAYS 71 AND 62

Where We Are . . .

We are located in Arkansas — in the northwest corner county (Benton), only twelve miles south of the Missouri line and twenty-six miles east of the Oklahoma line; eighty-one miles almost due north of Fort

Smith, Arkansas, and eighty-three miles almost due south of Joplin, Missouri; one hundred twenty-nine miles east of Tulsa, Oklahoma, and one hundred six miles southwest of Springfield, Missouri. On Federal highways 71 and 62, just south of Rogers, Ark.

ON THE TIP TOP OF THE OZARK MOUNTAINS where our growing season is

almost thirty days shorter than at Fort Smith, Arkansas. Our summers are short and nights are cool, and our growing season more like that of North Missouri, Iowa and Nebraska, than Eastern and Southern Arkansas.

Hence, our stock is well adapted to the extreme Northern, Eastern and Western States as well as being the best for Southern States.

Thirteen Reasons Why You Should Buy From Us:

- 1 Because we sell you the best trees, plants and vines that can be produced at prices far below what others will ask you for the cheap, worthless kind. Our nursery stock is grown by the best methods known to nurseries and no better can be produced regardless of prices. We offer \$100.00 reward for improved method on how to grow better nursery stock.
- 2 Because we prepay the postage or express charges on all orders amounting to \$10.00 or more, except Balled or Burlapped Evergreens.
- 3 Because we sell direct to the fruit growers saving you the agent's or middleman's commission.
- 4 Because we guarantee satisfaction or your money refunded, and we pay postage or express both ways.
- 5 Because we do not belong to any trust or combine, and are free to make our prices just as low as we believe we can afford.
- 6 Because all our trees and plants are guaranteed to be free from disease and insects, and have all been inspected by our State Inspector and each shipment bears a certificate of inspection.
- 7 Because we use every caution to keep all our varieties true to name and should a mistake occur and any variety prove untrue to name we will replace it free of charge or refund the price paid for it.
- 8 Because we grow and offer for sale only varieties that are known to be good fruits and money makers.
- 9 Because Benton County, Arkansas, has many, many acres of varieties of fruits and we have under our close observation a greater variety of fruits and berries than our competitors.
- 10 Because Ozark Mountains, Arkansas, Grown Nursery stock is now considered by Horticulturists to be the best that can be produced.
- 11 Because trees and plants must be well rooted if success is to be made with them. Ours are the best to be had.
- 12 Because our old customers send us repeated orders and their neighbors send us their orders; a proof that they are well pleased.
- 13 Because we use extreme economy in both growing and selling our nursery stock, thereby saving money for you.

**WE CANNOT ACCEPT
ORDERS FOR LESS
THAN \$1.00**

Because of the heavy expense of packing and high rates on first pound by parcel post and express we cannot fill orders for less than \$1.00, without loss to us and will ask you to make your orders amount to \$1.00 and up.

Benton County Nursery's TREES, SHRUBS and PLANTS are GUARANTEED TO LIVE. All You Have To Do is Follow the Simple Requirements Below.

We want you to be pleased with your orders you receive from us, we know that is the only way we can expect you to be a satisfied customer. Every plant that you order from this circular is **guaranteed to live**. We will replace free of charge any or all plants you buy that fail to live. We are not asking you to take any risk whatsoever, just give us your order and let us prove to you that we

mean what we say. **All you have to do** is be sure that your order is received on or before **May 15, 1945**, and that you notify us of any plants that fail to live on or before June 1, 1945. All we want is an opportunity to show you that we are proud to have you as a customer and leave the rest to us. We guarantee you will be a satisfied patron.

BENTON COUNTY NURSERY CO.
ROGERS, ARKANSAS

OUR SEEDS ARE ALWAYS TOP QUALITY

HONEY DEW, THE FAMOUS MELON. Green flesh, fine for home and market. Juicy and sweet.
HALE'S BEST. Sweet, sugary, salmon flesh. Early.

GARDEN

SEEDS FOR POULTRYMEN

POULTRY CABBAGE

Is a wonderful green food for poultry and has been known to yield 3 tons in a space 40 by 60 feet. You can't beat this for low priced feed. One-half pound of seed will grow enough greens to feed about 1,000 hens for four months. 3 pounds to an acre for 6,000 hens for four months. Poultry Cabbage is a rapid grower. In the Northern States the seed may be sown any time from early spring until the middle of July. In the South, seed may be sown throughout the entire year.

Pkt. 10¢; 3 pkts. 25¢; 1 oz. 50¢

Chisha, or Chicken Lettuce

You have, no doubt, read in the poultry journals that lettuce is an excellent feed for chickens. In the Chisha Lettuce you will find a feed that yields as much or more than other green feeds. It is economical to grow this strain, for when cut it resumes its growth rapidly and can be cut again and again; or the leaves can be pulled off each stem like the Jersey Kale. The yield is extremely heavy. Chisha, or Chicken Lettuce, does not make a head, but sends up a stout stalk, 3 to 4 feet high, and just loaded with leaves.

Pkt. 10¢; 3 pkts. 25¢; ¼ lb. 75¢

POULTRY BEET - MANGEL WURTZEL

Furnishes a tremendous yield per acre and makes an excellent green feed for poultry during the winter months and always increases egg production. Mangel Wurzel is excellent food for cattle and keep them in perfect physical condition and increase the flow of milk. Only a little garden space will be required for growing enough to last all winter, and they are very productive. Stored in cellar or any cool place, they will keep until spring.

Pkt. 10¢; 3 pkts. 25¢; ¼ lb. 85¢
1 lb. \$2.00—postpaid

MAMMOTH RUSSIAN SUNFLOWER

Sunflower seed is an excellent poultry feed at all times, and especially during the molting season. Single heads often measure 12 to 22 inches in diameter and contain an immense quantity of seed.

Pkt. 10¢ ¼ lb. 50¢; 1 lb. \$1.10

NEW CLIMBING WATERMELON

A superb variety that may be trained and tied to trellis, etc. Melons about size of large coconuts; crimson flesh of the highest quality; rich and sweet. Fruit ripens for a long period, unlike other sorts which ripen their fruit mostly at one time. An ideal melon for the small garden.

Pkt. 10¢; 3 pkts. 25¢

VINE PEACH

Ripe fruit in 80 days after seed is planted. This wonderful Vegetable Peach is the most beautiful of all vegetables. They resemble oranges in color, shape and size and grow on vines like melons. They present a beautiful and tempting appearance when canned and make delicious preserves and pickles; fine for pies. There is nothing like them. Extremely early; of the easiest culture and very prolific.

Pkt. 10¢; 3 pkts. 25¢

PUMPKIN

Pkt. 10¢; 3 pkts. 25¢; ¼ lb. 70¢
MAMMOTH KING. The largest of all.
SWEET POTATTO. The best for making pies and custards.

WE PAY THE POSTAGE ON ALL SEED ORDERS

Garden Huckleberry

The Garden Huckleberry produces from seed the first year. A new fruit that cannot be excelled for pies and preserves. Very prolific, yielding an immense crop of fruit. It is an annual and must be planted each year from seed. Grows and thrives in all climates and on all kinds of soil. The fruits grow larger than the common Huckleberry or Blueberry. If cooked with apples, lemons or anything sour, they make the finest jelly. You will be delighted and astonished with this easily grown, wonderful novelty.

Pkt. 10¢; 3 pkts. 25¢

TOMATOES

Pkt. 10¢; 3 pkts. 25¢; 1-oz. 70¢
EARLIANA. Earliest, smooth skin, uniform.
MARGLOBE. Globular, almost coreless.
BREAK-O-DAY. Early, wilt resistant, large fleshy, good quality.

COLOSSAL

This is a large tomato, being even larger than the famous Ponderosa. Many planters in different parts of the country have grown Colossal Tomatoes weighing over 3 lbs., and some more than 4 lbs. Not only does the Colossal produce giant fruits but it produces them in abundance. One planter in Illinois raised over a ton of Tomatoes from 186 plants. The very thick, meaty flesh, few seeds and mild flavor combine to give the Colossal a quality on a par with its immense size. Unsurpassed for slicing, canning.

Pkt. 20¢; 3 pkts. 50¢

WATERMELONS

Pkt. 10¢; 3 pkts. 25¢; ¼ lb. 70¢
TOM WATSON. An old favorite, flesh is deep bright red color.
CALIFORNIA HONEY. A small type melon just the right size to fit into your ice box.

Mammoth Prize Watermelon

Mammoth Prize is the largest Watermelon grown. Many grow to from 100 to 150 lbs. One 1 vine, 5 melons were grown that weighed 152, 151, 149½, 148¾ and 147 lbs., the five weighing a total of 748 lbs. The seed we offer is extra select, and should produce fine, sweet, juicy melons of excellent quality and enormous size.

Pkt. 10¢ 3 pkts. 25¢; ¼ lb. \$1.35

Kleckley's Sweet or Monte Cristo

One of the earliest, best and sweetest-flavored melons in cultivation. On account of its thin rind, it will not stand shipment to distant markets, but it is the best that can be grown for the home and nearby markets. The skin is dark green. It is of symmetrical oblong shape, well rounded on both ends. The flesh is scarlet, firm, solid, and of delightful flavor.

Pkt. 10¢; 3 pkts. 25¢; ¼ lb. 70¢

PEAS

Pkt. 10¢; 7-oz. 25¢; 14-oz. 40¢
2½ lbs. \$1.05
EARLY ALASKA. A smooth early variety and excellent for canning.
AMERICAN WONDER. Early and one of the best.
THOMAS LAXTON. Mid-season, medium growing, fine flavor.

Plant your VICTORY GARDEN

PEPPERS

Pkt. 10¢; 3 pkts. 25¢

CALIFORNIA WONDER. Large, sweet, crisp and tender.
LONG RED CAYENNE. Bright red color, strong and pungent.

RADISHES

Pkt. 10¢; 3 pkts. 25¢; ¼ lb. 45¢

WHITE ICICLE. Extra early, mild, tender.
EARLY SCARLET WHITE TIP. Tender and crisp, sweet flavor.

Plant a Garden for Defense of Country and Home

Protect your family's health and contribute to preparedness by eating vegetables grown in your own back yard.

POPCORN

AFRICAN GIANT POPCORN

Special Seed Disease-Free
Seed Pop Corn
Extra large, smooth grains. Some of them as large as one inch in diameter after popping. Pops with a loud bang. The minute it starts to pop, it sounds like a battle. Rich, cream-colored grains. Tender and delicious.
Big 7-oz. Package for 30¢
Enough to raise all the seed you need for next year

PROSO

The WONDER EGG and MEAT
PRODUCING Grain for Poultry

Here is a new Poultry Grain which owes its origin to Russia, that enables you to raise your own feed. If you only have a small plot of ground, you can make an enormous crop. Proso is unlike anything you have ever seen in this country. It grows more rapidly and matures quicker than other grains. It reaches a height of three to four feet, stools and branches, making fifteen to twenty-five heads instead of one. That is why it yields such enormous crops from such unbelievably small plots of ground.

Wonder Egg and Meat Producer for
Chickens, Ducks and Geese

Proso makes a splendid mash when ground alone. When feeding with corn or oats the ratio should be four parts Proso to one other grain. It may be fed in bundles as the kernels are readily scratched out of the heads, or it may be fed as clean grain from the thresher. Produces more eggs and meat per bushel than ordinary grains.

Fine for Hogs, Cattle and Sheep
Grows Anywhere—May Be Planted Late
Although a native of Russia, Proso does better, grows faster and matures quicker in our climate. During the fifteen years it was first introduced in this country, it has become acclimated so that it now grows here just as well as our native crops. It may be planted any time after corn planting time up to the middle of July.

7-oz. pkg. 45¢; 2½ lbs. \$1.20
5 lbs. (1 acre sowed in drills) \$2.00
12½ lbs. (1 acre broadcast) \$4.00
25 lbs. \$7.00

Raise Vegetables For Your HOME & NATION

CACTUS SEEDS

Cactus makes most interesting house plants, extremely odd and curious, and many have gorgeous and beautiful blossoms, sweet scented, and blooming profusely. These oddest of all plants grow in many shapes and sizes, are easily grown, thrive and bloom with very little care, and endure the heat and dryness of the ordinary living room. Much pleasure may be derived in growing them from seed. Everyone is delighted and surprised at the odd appearance of a Cactus just sprouting. If you desire a fine collection of rare varieties, sow the seed in pots or boxes in a warm room in moist sand, and the seed will grow quickly. We have fresh seed of a mixture of choice varieties.

Pkt. 10¢—3 pkts. 25¢

SHOO-FLY PLANT

It is said that flies will not stay in a room where it is grown if they can conveniently escape. What it is about it that repulses them is not clear, as the plant and flowers have no odor. It is a beautiful flowering plant, and blooms in a short time (60 days) from seed. It is a profuse bloomer in pots both summer and winter, the blooms being large, cup-shaped and of a lovely light blue color with white center.

Pkt. 10¢—3 pkts. 25¢

FLOWER SEEDS

MEXICAN FIRE PLANT

(Annual Poinsettia)
A variety of Poinsettia which grows quickly to a height of 2½ to 3 feet from seed sown in the open during May. About the middle of summer, the top central leaves turn to rich orange-scarlet, similar to the famous greenhouse variety of Poinsettia which is so popular about Christmas time. A blaze of glory throughout the summer and fall. Can also be grown as a house plant.

Pkt. 10¢; 3 pkts. 25¢

DAHLIA-FLOWERED GIANT ZINNIA

This type bears flowers of mammoth size and in form like a perfect decorative Dahlia. The plant is a strong grower and flower stems are long and stiff. This remarkable variety includes a complete range of delicate, bright and rich colors from white, yellow, lavender and rose to orange, scarlet and crimson. A wonderful cut flower.

Pkt. 10¢; 3 pkts. 25¢

ANGEL'S TRUMPET

Large tropical leaves with trumpet-shaped flowers—pure white and as fragrant as jasmine. Blooms indoors in winter and in the garden in the summer.

Pkt. 20¢

ORNAMENTAL GOURDS

Calabash Pipe—Dishcloth—Nest Egg—Pear-Shaped—Powderhorn—Sugar Trough
A fine mixture of rare, useful, ornamental varieties.

Pkt. 10¢; 3 pkts. 25¢

Ostrich Feather ASTERS

We are now offering improved strain of Giant Ostrich Feather, and consider it the finest of all Asters. The plants are about 2½ feet high, robust in growth, and branch freely, and are loaded with magnificent, feathery, full, fluffy flowers par excellence. Beautiful mixed colors.

Pkt. 15¢; 2 pkts. 25¢

BALSAM PEAR

Ornamental Vine with Edible Fruits
A very ornamental and curious climbing vine with glossy green foliage. Pear-shaped ornamental fruits known to Chinese as La-Kwa, and used extensively in China as a food for human consumption. Usually prepared for the table by boiling the fruit before they are ripe. Give it a trial, both as an ornamental and as an addition to your list of edible fruits.

Pkt. 10¢; 3 pkts. 25¢

GROW YOUR OWN COFFEE

COFFEE 1c per pound

Grow your own coffee at an expense of less than one cent per pound. The best coffee substitute ever discovered, and thousands pronounce it as good or better than the best coffee. It has the rich, deep brown color of old Java. One of the easiest grown and most productive of all plants. It is an early variety of soy beans; can be successfully grown in any climate, and is sure to ripen even in the extreme North. Prepared like any other Coffee. Full directions with every packet.

Pkt. 10¢; 3 pkts. 25¢

Plant the New BOYSENBERRY for Handsome Profits!

Said to be the largest and finest vine berry ever introduced. The Boysenberry is a new variety produced by crossing blackberries, raspberries and Loganberries. The flavor is a very pleasing blend of these varieties. It has few and soft seeds. The plant is very vigorous and hardy, coming through in good condition, without injury, in temperatures as low as 19 below zero. The berries are extremely large, many of the berries getting more than two inches long and over one inch in diameter.

This FALL Is the Best Time To Plant That Orchard

—WHY DO EXPERIMENT STATIONS, AGRICULTURAL COLLEGES AND FRUIT GROWERS RECOMMEND FALL BUYING? Because you can buy this Fall and have the stock shipped to you and "heel it" so that you may plant at the most favorable time during Fall, Winter, or next Spring.

Fall planting is becoming more popular each season as experience shows its advantage. As soon as a tree or shrub becomes dormant it can be moved and the change of location will affect it but little. When set out in the Fall the bruised roots begin at once to heal and callus is formed; recover quickly from moving; soon become firmly established and with the first touch of Spring are ready to go into business for themselves in a vigorous way. Again, the ground is usually in better condition for planting in the Fall than in Spring, for much Spring planting is done when the ground is too wet for best results. Perhaps your Spring will be two or three weeks earlier. In this case your trees should be planted earlier than the dates you have ordered them shipped. If they have been planted in the Fall, these Spring delays are done away with.

Below We Quote From One of the Best Authorities in the Country on This Subject

C. A. McCue, Horticulturist, New Castle County, Delaware
It is good practice to do as much Fall planting as possible. Our experience is that a Fall planted tree does at least 50 per cent better the first year than one set out in the Spring.

FREDONIA—Earliest black grape and very large.

RED, WHITE and BLUE GRAPE SPECIAL

12 2-year Vines: 4 red, 4 white, 4 blue, of the very best sorts, that will ripen at different times, all delivered to your door, for \$1.50. (Our selection of the varieties.)

12 2-year-old Vines for \$1.50

Delicious NECTARINES

A most unusually outstanding and delicious plant. A cross between a peach and a plum. Resembles a peach in shape, size and flavor. As fuzzless as a plum. Fruit is large, juicy and melting. Unequaled either as a fresh fruit or for canning. Flesh fine grained and a beautiful color clear to the pit. Destined to become one of America's most popular tree fruits. Has the same habit of growth and bearing as the peach, and requires the same care.

QUINCE

ORANGE—Large, roundish, yellow; cooks tender and is of excellent flavor. Valuable for preserves and flavoring. Productive. September and October.

2 to 3 ft. \$1.00 3-4 ft. \$1.20

HORSERADISH

It is as easy to grow as a weed, and every good housewife knows its great value in the making of sauces and seasoning. Once used in pickle, it will never be done without. Pronounced by the best authority to be perfectly wholesome. A dozen plants will supply a large family for a lifetime, and it grows and multiplies very fast.

10¢ each \$1.00 per dozen

MULBERRIES

DOWNING—Fruit is rich, sub-acid flavor, lasts six weeks. Stands winter of western middle states.
STUBBS—Originated in Laurens County, Georgia. A tree of fine growth, beautiful foliage; fruit is of enormous size, frequently two inches in length; quality excellent. Lasts two months; extremely rare variety.

2-3 ft. 60¢ 3-4 ft. 70¢

THE SHIPPING SEASON generally begins about October 15th, and continues until up in May. The season is not regulated, however, by any definite date, nor by the state of vegetation at the locality of the planter, but by condition of the trees when received. Parties south of us may receive our trees some weeks after their season has opened, yet when planted they will give entire satisfaction.

CRAB APPLES

2 to 4 ft., 75¢ each

for All Climates

Crab Apples are especially desirable in the colder sections as only a few varieties of apples can be successfully grown; but they succeed well in all climates and their fruit is very popular for preserves, jelly, and some sorts are excellent for eating.

FLORENCE

The finest of the Crab Apples. Tree of rather small size, coming into bearing when very young and producing heavily; the fruit setting in clusters. The apples will measure about an inch or slightly more in diameter; golden yellow with a bright cheek, or almost entirely red. The flesh is firm, fine grained and exceedingly juicy with that distinct snappiness so relished in a crab apple.

RED SIBERIAN

Fruit about an inch in diameter, brilliant yellow with an attractive red cheek; very juicy and excellent for jellies, preserves and pickles. The tree becomes of very large size.

DOLGO

A handsome red Crab Apple. Flesh and deep red to the core. The fruit is full of juice, jells easily and makes a rich ruby red jelly of beautiful color and excellent flavor.

The Old Folks' Favorite

ANOKA

Bears second year. A wonderful early apple. Fruit is large and yellow, streaked with strawberry red. Good flavor.

2 to 4 ft., 75¢ each

12 for \$7.50

ONE YEAR OLD

APPLE Collection

This is absolutely the biggest bargain we have ever offered in one-year apple trees. Order these and have ripe apples a year earlier. These trees are well branched and we guarantee them to be first class in every way. Just Look What You Get:

12 for \$5.00

HYBRID PERSIMMONS

Some of these should be planted by every family. The fruit often measures ten inches in circumference. They ripen in August, September and October. The trees bear young, and are very ornamental.
EUREKA—Very large, oblong, pointed, flesh yellow, skin red.
HYAKUME—Large round; skin orange red; flesh brown or dark; very sweet.

\$1.00 each

RHUBARB (Pie Plant)

Culture—Good plants are easily grown in any good soil. Plant four feet apart each way, in deep, warm and very rich soil. The more manure the better the stalk. For winter forcing, take up two-year roots in fall, leave out to freeze, then bed close together on cellar bottom or under greenhouse bench in the dark.

GIANT VICTORIA—This is one of the greatest and most valuable vegetables we have ever offered. It is the earliest, tenderest, sweetest, and best of all rhubarbs; fit for use in early spring, summer and all fall, while the common or sour sorts are fit for use only a few weeks in the spring. As fast as stalks are pulled new ones take their places. Scarcely has the frost disappeared until your table is supplied with this delicious, refreshing and healthful article of food which is so much desired and appreciated. The stalks are twice the size of the ordinary kind, and of a bright, crimson color, very tender, crisp and of mild, delightful flavor; the skin is so tender it does not have to be removed when cooking and the sauce has a deep crimson color. Stalks will average 10 to 24 inches long; broad, thick and solid; stalks will weigh on an average one-half pound each and often weigh a full pound. Enormously productive, brings high prices and is a great money maker and in great demand. Try a dozen or two, our word for it, you will never have cause to regret your purchase, and you will never be without some of this variety.

10¢ each, \$1.00 per doz.

MORE LETTERS

Wentworth, Mo., Sept. 10, 1943.

Gentlemen:
I purchased several years ago of you a collection of Apple Trees (your selection); often wondered as they grew if I had "BOUGHT A BLIND PIG IN A SACK" and if they would be worth the time and money I spent on them. In 1941 they had a few blossoms. In 1942 they bore a small crop. They are not "A BLIND PIG IN A SACK" as they were all standard, well known varieties and show clearly they were propagated from parent tree stock of heavy bearing and true to name and high quality. This year they were a mass of blossoms and had a fine set on the trees and would have been highest quality if we had a normal season. The peach trees I purchased of you last spring came through better than some fine new varieties I bought from your competitors and never lost one of your trees.

Yours respectfully,
FLAVIUS E. CLARK, Sr.

Benton County Nursery, Hazen, Ark.

Dear Sirs:
I thought that you would be pleased to hear that peach trees ordered by me through the Southern Farmer (Ark.), were received promptly and in perfect condition. The yard man who planted them for me said today that every tree has new leaves, and feels certain that each tree will bear fruit in due time. Thanking you for sending such fine specimens, I am,
Cordially,
MRS. MALENA K. KNIGHT.

18 Bushels from 10 Trees the 2nd Year February 6, 1939.

Dear Sir:
We ordered about sixteen trees from you and put them out in January, 1936. In 1938 we gathered three bushels of Plums, four bushels of Red Bird Cling Peaches, eight bushels of Early Elberta Peaches, and three bushels of Krummel October Peaches. They were large, fine peaches and were of such good flavor. I am a Benton County Nursery booster, and am ordering your Banner Fruit Collection today.

Yours very truly,
MRS. KATE V. WHITE,
R. No. 1, Box 93, Durant, Ok.

Our Guarantee . . .

Is that you must be satisfied or your money will be refunded for any items you purchase from us that are not what we represent them to be. Upon receipt of any stock ordered from us, if you are not perfectly satisfied, return it to us by express or mail and we will refund you all money paid us for the items returned and for all transportation charges paid by you.
All claims except stock not true to name must be made by June 1st.

Dear Sir:
I am a 4-H Club girl and with some money my Mother gave me, I bought some apple and peach trees from you. The other girls and boys laughed at me. Of course I felt blue the first year, but now the laugh is on them. I am just tickled pink. My little trees are fine and I sold \$22.75 worth of peaches this year and could have sold more.
Everyone thought they were the finest peaches and asked me where I got them.
I am planning on ordering more trees from you this fall so be sure and send your catalog.
From your little customer,
WELLIS E. HAWS,
Rt. No. 2, Box 70,
Marvell, Arkansas.

The Audubon Guide to Attracting Birds

Edited by John H. Baker, executive Director, National Audubon Society. A practical guide to attracting birds to home surroundings, by the staff members of the National Audubon Society. BETTY UPRICHARD—Large blooms of delicate salmon-pink, one of the best bloomers.

BRIARCLIFF—A beautiful rose-pink. Very hardy.

YELLOW VARIETIES

GOLDEN DAWN—Richly fragrant, pale lemon-yellow flowers of great size and lasting quality.

MRS. P. S. DU PONT—Golden yellow. The plant is very compact and leafy. Blooms throughout the season.

LUXEMBOURG—Yellow, shading to copper at center. Stiff, upright stems. Valuable for cutting.

WHITE VARIETIES

K. A. VIKTORIA—Well formed creamy buds, which develop slowly to snowy white blooms of perfect form.

CALADONIA—A pure white rose that is very fragrant.

TWO-TONE VARIETIES

TALISMAN—Brilliant red and golden buds that open to beautifully shaped blooms of scarlet-orange and golden yellow. Will thrive almost anywhere.

PRESIDENT H. HOOVER—Large, cerise-pink, flame, scarlet, and yellow bloom. Broad petals and fragrant.

BEAUTIFUL CLIMBING ROSES

RED RADIANCE—A vigorous climber and identical with the bush Radiance.

TALISMAN—Same shade and quality as the bush variety.

PAUL'S SCARLET—Scarlet flowers of excellent shape and moderate size, borne in small trusses.
